

# WinTV-aero (Model 55109)

## The ultramobile DVB-T stick!

### Overview

The Hauppauge WinTV-aero stick is the first and only DVB-T stick with built-in DVB-T telescopic antenna!

In addition to this, the very compact design and the low power consumption make the WinTV-aero the optimal TV solution for mobile computers, especially netbooks and small notebooks. Thanks to its extremely sensitive tuner-technology TV reception works also fine with weak signals.

The latest version of Hauppauge's WinTV v7 software makes it easy to watch, timeshift and record TV. The software supports watching live-TV or recordings in full-screen or in a freely scalable window as working with other software.

The Hauppauge WinTV-aero supports HDTV\* and is certified for Windows Vista.

(\*) Depending on the availability of the HDTV signal in the region and the Hauppauge WinTV v7 Software version being delivered with the stick.

### Target Market

#### Business traveller/mobile user:

Thanks to its attractive and space saving design Hauppauge WinTV-aero is the perfect travel companion. There is no need to carry an additional antenna. The low power consumption saves notebook battery.

#### Urban tech enthusiast:

The product is easy to carry, easy to use and unique in its industrial design. This makes it a great gadget for all users who want to watch TV in every situation even in a café or in the park.

## Key Features

### The only DVB-T stick with built in telescopic antenna!

- Compact design – easy to carry
- Best DVB-T reception – even with weak signals

## Tuner

- TV standard: Digital terrestrial DVB-T (MPEG-2, Tuning range 174~862 MHz)
- Channel bandwidth 7, 8 MHz
- Antenna input: IEC, 75 Ohm
- Interface: USB 2.0 (Hi-Speed)

## TV Recording Format

MPEG-2

## Power consumption

1W (200mA, 5V)

Important notes on DVB-T reception:

Please ask your dealer whether DVB-T is available in your region. DVB-T reception is depending on location and might be impaired by thick or steel-enforced walls, and high neighbouring buildings. In such environments, an outdoor / roof-top DVB-T antenna is required. Mobile reception of DVB-T, e.g. in a car or train, is in general not possible.

DVB-T radio is not available in all regions.

Hauppauge reserves the right to change product specifications without notice.

## Product Description

### 25-Words

Ultra-mobile DVB-T solution with built-in telescopic antenna, ideal for small Notebooks or Netbooks, no external antenna required, extremely sensitive DVB-T tuner.

Major bullet points:
